---

## Experience

### TD SYNNEX / Enterprise Architect

2016 - PRESENT, Texas, USA

- Led a high-performing **technology team**, pivoting strategic focus from pure cloud-centric operations to an enterprise-wide technology mandate.
- Developed and designed **hybrid cloud architecture** with various landing zones to accommodate Line of Business (LOB) applications, ensuring alignment with overarching enterprise technology principles.
- Oversaw the **strategic direction** for enterprise-wide technology adoption, including managing relationships with key technology vendors and ensuring alignment with enterprise architecture.
- Provided **Delivery Leadership** for multiple strategic technology initiatives, successfully guiding large-scale implementations, and ensuring project objectives were met. This included spearheading the integration of **AI/ML capabilities** into core business processes, resulting in a **45% increase** in operational efficiency.
- Implemented and governed an enterprise-wide **AI implementation and governance framework** at scale, ensuring ethical deployment, compliance, and responsible AI practices across all business units.

### Everis / Team lead - Infrastructure Engineer

2014 - 2016, Barcelona, Spain

- Part of the Infrastructure team providing consultancy to various Everis clients, IBM, Volkswagen, European Patent Office, ITNow and la caixa bank
- Design and implement various Infrastructure solutions for Everis clients, VDI solutions based on Citrix and Vmware Horizon, vSphere infrastructure, VEEAM backup solution, backend data infrastructure based on Oracle and SQL
- Led infrastructure automation initiatives, utilizing PowerShell, Bash, and Python scripting for enhanced efficiency.
